

## POSTER PRESENTATIONS

### DRAFT

1. Distribution, reproduction and food of *Squalus acanthias* in pantagonian waters, SW Atlantic Ocean- Edgardo Di Giácomo, María Perier, Nidia Coller
2. Physiological Response to Trawl-Net Capture in Spiny Dogfish ( *Squalus acanthias*) Matt Rhodes, University of Maryland Eastern Shore, Andrea Johnson, University of Maryland Eastern Shore
3. Genetic Analysis of Western Atlantic Spiny Dogfish Stock Distribution  
Melissa Sanderson, Cape Cod Commercial Hook Fishermen's Association, MA  
Gabi Gerlach, Marine Resource Center, Marine Biological Laboratory
4. Sources of variation in the feeding ecology of the piked spurdog (*Squalus mealops*): implications for inferring predator-prey interactions from overall dietary composition Matías Braccini, Southern Seas Ecology Laboratories; Bonwyn Gillanders, Southern Seas Ecology Laboratories; Terence Walker, Primary Industries Research Victoria
5. Age, growth and reproduction of deepwater dogfishes from southeastern Australia. Sarah B. Irvine, CSIRO Marine and Atmospheric Research; John Stevens, CSIRO Marine and Atmospheric Research; Laurie Laurenson, School of Ecology and Environment
6. Histological study of the development and adult morphology of the oviducal gland in *Mustelus schmitti*. Fernando Elias Gabriela, Universidad Nacional del Sur; William Hamlett, Universidad Nacional del Sur
7. Occurrence of spiny dogfish (*Squalus acanthias*) in the Pacific waters off the northern Kuril Islands and southeastern Kamchatka Alexei Orlov, Russian Federal Research Institute of Fisheries and Oceanography (VNIRO); Alexei Tokranov, Kamchatka Branch of Pacific Institute of Geography
8. The results of age determination of *Squalus acanthias* and *S. mitsukurii* carried out in AtlantNIRO. V.T. Soldat and F.F. Litvinov
9. DogFish populations north and south of Cape Hattera, North Carolina , are of the same population using population demographics. Roger Rulifson
10. Distribution, relative abundance and ecological aspects of dogfish sharks by-catched in the crustaceans trawl fishery from Chile J.C. Villarroel & E. Acúna
11. Determining long-term feeding habits of the spiny dog fish (*Squalus acanthias*) using stable isotope analysis. Sue Hazlett, University of Alaska Fairbanks; Gordon McFarlane, Fisheries and Oceans, Canada; Matthew Wooller, University of Alaska Fairbnks
